

- 01. SCORE**
- 02. CUT**
- 03. FOLD**
- 04. GLUE**

01. Scoring or making a line or depression in the paper that will help the paper fold is recommended. You can score paper using various dull edges like a butter knife, paper clip, or even a penny along side a ruler.

02. Arrows signify a cut to first corner or dot. In one instance on the base, you will need to cut from arrow to arrow. Use the dotted lines as a guide.

03. For the ears, it's easier to use the dotted lines and cut out a rectangle shape first then fold the halves together and then cut the main shape of the ear out.

04. ASSEMBLAGE: Attack the legs and crotch first. Be patient, let your glue dry (stick glue is great) then finish with the top.

DO IT YOURSELF!

Download, create, assemble, take photo and email it to me at info@mycryptonauts.com and I'll upload it to my site!
